

Making Your Blackboard Course Available to Students

- 1) Within a new course, you will notice a message of unavailability along the top of the screen.

- 2) To make the course available, click on **Control Panel**, **Customization**, and then **Properties**.

- 3) On the **Properties** page, locate **Set Availability (Part 2)**, select **Yes**, and click **Submit**.

Students now have access to your course in Blackboard.
