

View a Photo Roster in Blackboard

View and easily print a roster highlighting your student's photos. The Photo Roster tool uses student photographs from the GWorld office.

1. From within a Blackboard course, navigate to the **Control Panel**.
2. Select **Course Tools** and click **More Tools (GW)**.
3. On the next page, click **Photo Roster**.

Photo Roster

View an easily printable roster highlighting student photos

4. You can then view and print a photo roster of students currently enrolled in your course. A generic silhouette image will appear for students that do not have a GWorld photo.

The photo roster Tool is only available to instructors of the course. Students cannot access or view the Photo Roster. Because these records are confidential photos should not be shared without the permission of the students.
