

Create a Multiple Choice polling slide using TurningPoint

- 1) Log in to TurningPoint with your Turning Account.
- 2) Choose the **PowerPoint Polling** panel. Then choose an existing PowerPoint or create a new one.

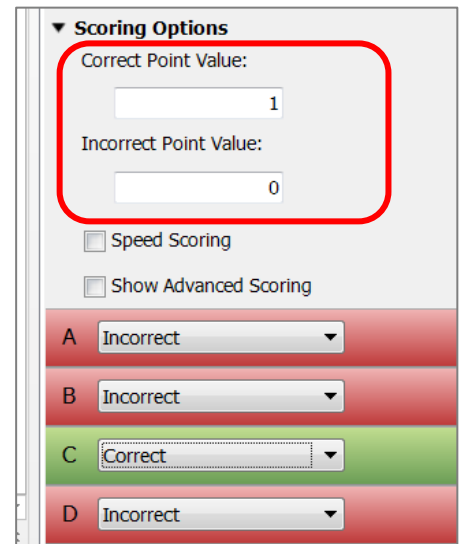

- 3) Click **New** and select **Multiple Choice** (other questions types are available).

- 4) Type the question and answer options. In the right-hand slide options panel, set point value and correct answer.

- 5) Reset slides before using the presentation in a live classroom setting.

- 6) Press F5 to activate polling. A **Polling Open** notification and response tally will appear at the top of the screen.

- 7) To close polling and display the results, advance the slide.
