

Upload TurningPoint Scores to Blackboard

- 1) Log into TurningPoint with your Turning Account.
- 2) After completing a TurningPoint session, save the session data and return to the TurningPoint dashboard.

- 3) In the **Manage** tab, click once on the course participant list you want to use then click **Results Manager** at the bottom right of the screen. The Results Manager will display the session results.

- 4) Click the **Course Integration** button.

Integration

Integration:

Server Address:

Username:

Password:

Select an Institution:

per this information

- 5) In the Course Integration window, choose Integration: **Blackboard**, enter server address: **blackboard.gwu.edu**, then enter your GW NetID and password. Click **Connect**.

- 6) In the **Update with Integration** window, choose to **Export Session**, select the session you want to upload to Blackboard, and then click **Export**.

TurningPoint will then alert you that the session data has successfully uploaded to Blackboard, as well as, if any students are not registered or licensed (inactive).
