

## Make a Blackboard Course Available to Students

Blackboard courses are initially hidden from students until the instructor chooses to make it available. Follow the steps below to make a course available to students.

1. Open the Blackboard course that you would like to make available. You will see a message along the top of the screen indicating it is unavailable to students.

Training Course 00  (Course is unavailable to students)

2. Scroll down to the **Control Panel** menu, click on **Customization**, and then select **Properties**.

3. Under **Set Availability**, click **Yes**.

### SET AVAILABILITY

*Make this course available to users?*

Make Course Available

- Yes  
 No

4. Click **Submit** to save your changes.
