Share Echo360 Classroom Recordings with Another Course

Share your classroom recordings with other Echo360 courses. You must be listed as the instructor of a course to publish a recording.

1. Open your Blackboard course and click **GWU Lecture Capture** on the menu.

2. On the Echo360 course page find the lecture you want to share, click on the green media icon to the right of the title, and choose **Details**.

3. Scroll below the video to the **PUBLISHING** section and click the blue **PUBLISH** button.

4. Complete the **Publish to a new location** page and click **PUBLISH** at the bottom.

5. The recording is now published to both courses.

Note: If you don’t see your course or section listed contact the ITL at itl@gwu.edu.
